

City of Columbia's Quick Reference Procurement Guide

"SC Severe Storms & Flooding DR 4241/3373"

OCTOBER 2015

We Are Columbia

Procurement by Non-Federal Entities Other Than States

When procuring property and services under a Federal award, all non-Federal entities that are not States must follow 2 CFR Sections 200.318 through 200.326.

Disclaimer: The City of Columbia shall establish procedures in accordance with the City of Columbia's Procurement Regulations, SC Procurement Code, CFR 200, Uniform Rules set forth in C.F.R. 200.317-326 and all other applicable State, Federal & local laws, rules and governing procedures. This guide is intended to be a quick reference guide only for internal users to conduct sound procurement practices as part of the City of Columbia's Disaster Recovery Continuity of Operations (COOP) Plan. Other public entities may be required to follow other guidance but this guide is to be used for SC Severe Storms & Flooding DR 4241/3373 procurement and contracting opportunities conducted by the City of Columbia as of October 2015.

*****This guide is subject to change as updates are released by the Purchasing Division *****

COC Disaster Recovery

Procurement Tips

- Determine the Actual “Need” and verify if the item or service is related to the SC Severe Storms & Flooding DR 4241
- Determine the estimated dollar value of the procurement and complete the COC/FEMA Procurement Checklist on page 4
- Contact Purchasing or Contracts Office for procurement assistance
- Submit requisitions through to Purchasing
- Add in the “Account” field in IFAS on your requisition your current (original) account information (See next page)
- Add in the “End Use” field in IFAS on requisition:
SC FLOODING DR4241
- ***Full & Open Competition Required***
- Encourage Small, Minority & Women-Owned Business Participation
- Utilize labor surplus firms (see definition)
- No Split purchases shall be made to avoid procurement thresholds
- Advertise in SC Business Opportunities (SCBO)
- Solicitations will be posted on COC Website under Procurement Opportunities
- Utilize Emergency Procurement Form only for valid pre-approved “Emergencies” (See pages 6 -7)
- All quotes must be solicited and responses must be in writing prior to orders placed and POs issued
- Price gouging during emergency events is strictly prohibited as outlined in SC Code of Laws Section 39-5-145. If you have concerns about excessive pricing, please contact the Purchasing Office immediately and this matter will be escalated to Legal.
- Vendors/Contractors Debarred or Suspended may not participate in the bid process.

Account Field:

Please see screenshot below for placement of your standard account information (prior to Purchasing changing the account code to the SC Flooding related funding code). This is required in case the item or service is ineligible for reimbursement under FEMA guidelines then the funds will be changed back to the appropriate funding codes you have specified in this block based on your original (non-FEMA) approved budget category.

Also, please remember to place your original (non-FEMA) GL funding codes on the requisition in the normal location for account info which is located to the right of the Unit Price field. **Use object code 638400 for all items!** Purchasing will make the necessary changes to reflect FEMA coding.

End Use Field: Please add in this field on your IFAS requisition: SC FLOODING DR4241 if the item or service is storm/flood related.

The screenshot displays the SunGard IFAS software interface. At the top, there are navigation buttons and a 'Find Mode' button. Below this, there are several input fields for requisition details: PR, PO, Status, Sec Cd, Aprv, and Next. A set of tabs includes Vendor, RemitTo, ShipTo, BillTo, Reqt'd, Aprv'd, Printed, Details, Dates, Blanket, Req. Codes, and Misc. The 'Details' tab is selected, showing fields for Confirm, Account, Bid #, Contract #, End Use (highlighted with a red arrow and containing 'SC FLOODING DR4241'), Buyer, PO Type, and Terms. A 'PO Total' of \$0.00 is also visible. Below the details section is an 'Items' table with columns for Item Num, Quantity, Units, Product Code, Description, and Unit Price. The table is currently empty. At the bottom, there are additional tabs for Taxes, Miscellaneous, Account Distribution, and Item Shipping, along with a 'Find Mode' button and a 100% zoom level indicator.

EMERGENCY PROCUREMENT
PAGE TWO

Note: In accordance with 2 C.F.R. §200.320 (f)(2) – several exemptions may be allowed during an emergency but we must solicit from as many potential sources as practicable under the circumstances. The duration for the contract is limited to take care of the “emergency” only and we must properly solicit for long-term needs.

The following two lists are provided as a guide to assist you with your Emergency Procurement needs:

Pre-contracting Considerations:

- ✓ Determine the City’s immediate need. Is the description or scope of services sufficient enough to reflect only the City’s emergency needs and only for the duration of the “actual” emergency?
- ✓ Validate that you received as much competition as was practical to satisfy the Emergency. Ensure that the price is fair and reasonable by soliciting as many quotes as possible.
- ✓ Verify that there was not an open Emergency Procurement Schedule (Federal, state, etc.) available to obtain the needed items or services.
- ✓ Is funding available and approved prior to authorizing the work to commence?
- ✓ Is this procurement being completed by an authorized COC representative without any conflict of interests?

Post Contracting Considerations:

- ✓ Did the City representative first check to see if there were existing Emergency contracts, approved cooperative or interagency agreements available prior to using this form?
- ✓ Was funding adequately identified prior to authorizing work?
- ✓ Was the competition maximized to the fullest extent possible to handle the emergency?
- ✓ Were CORs/COTRs appointed to oversee performance?
- ✓ Did the COR/COTR document performance?
- ✓ Did the contractor deliver the amount the government ordered?
- ✓ Did the contractor deliver the right items to the appropriate location?
- ✓ Were the performance requirements met? If not, were the adjustments made appropriately to the contract and invoice(s)?
- ✓ Did we adjust the quantity, price or delivery terms, if needed?
- ✓ Did someone with the appropriate authority accept the goods or services?
- ✓ Were invoices reviewed to ensure accuracy and conformance to the contract?
- ✓ Was the complete file documented adequately?
- ✓ Were process improvements identified and recorded for future reference?
- ✓ Post documentation has been completed for all verbal quotes for simplified (non-sealed bid) purchases. This information must be provided as soon as possible to include the name of company submitting quote, title/representative, cost and total scope of services or purchase or goods. The COC staff member’s contact info should also be included in case we have further questions.

Ensure that proper documentation is attached prior to forwarding the final form to Purchasing.

COR- Contracting Officer Representative

COTR- Contracting Officer Technical Representative

(The City of Columbia, a non-Federal entity, will comply with the following Conflict of Interest Guidelines in accordance with 2 CFR 200.318)

Attention City Officials: Further information will be released to City Staff next week to further comply with the Conflict of Interest Policy below. You are encouraged to review and required to adhere to this provision and forms will be released shortly to be completed by the appropriate staff members.

Conflict of Interest Policy

The non-Federal entity must maintain written standards of conduct covering conflicts of interest and governing the performance of its employees engaged in the selection, award, and administration of contracts as required in 2 CFR Section 200.318. No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a Federal award if he or she has a real or apparent conflict of interest.

If the non-Federal entity has a parent, affiliate, or subsidiary organization (that is not a State, federally-recognized tribe, or local government), then the non-Federal entity must also maintain written standards of conduct covering organizational conflicts of interest. Organizational conflicts of interest occur when the non-Federal entity is unable, or appears to be unable, to be impartial in conducting a procurement action involving a related organization because of relationships with a parent company, affiliate, or subsidiary organization.

To ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft design plans and specifications, requirements, statements of work, and invitations for bids or requests for proposals must be excluded from competing for such procurements as required in 2 CFR Section 200.319(a).

Ethics & Gifts:

Vendor is subject to the provisions of the 1991 Ethics Reform Act (8-13-100, et seq, South Carolina Code of Laws, 1976, as amended). Under this Act, City employees are prohibited from accepting anything of value from any person. “Anything of value” includes, but is not limited to, lodging, transportation, entertainment, food, meals, beverages, money, gifts, honorariums, discounts and interest-free loans.

COC/FEMA/NIGP Procurement & Contracting Terms
SC Severe Storms & Flooding DR-4241
(For Internal – COC Procurement Reference Only)

Acquisition:

1. As defined under FAR 2.101: Acquiring by contract, with appropriated funds, supplies or services (including construction) by and for the use of the Federal Government, through purchase or lease, whether the supplies or services already exist or must be created, developed, demonstrated, and evaluated.

2. The process of obtaining supplies, services, or construction through purchase, lease, or grants.

Best Value: An assessment of the return which can be achieved based on the total life cycle cost of the item; may include an analysis of the functionality of the item; can use cost/benefit analysis to define the best combinations of quality, services, time, and cost considerations over the useful life of the acquired item.

A procurement method that emphasizes value over price. The best value might not be the lowest cost. Generally achieved through the Request for Proposal (RFP) method.

Bid sample: A sample to be furnished by a bidder to show the characteristics of a product offered in a bid. Bid samples are used only to determine the responsiveness of the bid. (Nash, Schooner, O'Brien, 1998) - NIGP

Certified cost or pricing data: Contractor certification that to the best of the contractor's knowledge and belief, the cost or pricing data submitted was accurate, complete and current as of a mutually determined date prior to the date of the pricing of any contract, change order or modification.

Competitive proposals: a method similar to sealed bid procurement in which contracts are awarded on the basis of contractor qualifications instead of on price. This method is often used for procuring architectural or engineering professional services. In addition, this method normally involves more than one source submitting an offer and is used when conditions are not appropriate for sealed bids.

Conflict of Interest: A clash between the public interest and the private pecuniary interest of the individual concerned. (Blacks Law Dictionary, 299, 1990). The term identifies those situations where contractors or public officials may obtain a benefit from a public contract. Conflicts of Interest may result in a breach of ethics or an ethical code. Actual or Perceived Conflict of Interest: Any action, decision or recommendation by an agent or public official acting in an official capacity, the effect of which could be to the private pecuniary benefit or detriment of the person or person's relative.

Contract:

1. A contract is an obligation, such as an accepted offer, between competent parties upon a legal consideration, to do or abstain from doing some act. The essentials elements of a contract are: an offer and an acceptance of that offer; the capacity of the parties to contract; consideration to support the contract; a mutual identity of consent; legality of purpose; and definiteness.
2. A legally binding promise, enforceable by law.
3. An agreement between parties with binding legal and moral force, usually exchanging goods or services for money or other considerations.

Contracts (Four types of contracts allowed for FEMA reimbursement):

- 1) **Lump sum contracts:** contracts for work within a prescribed boundary with a clearly defined scope and a total price
- 2) **Unit price contracts,** for work done on an item-by-item basis with cost determined per unit
- 3) **Cost-plus-fixed-fee** contracts, either lump sum or unit price contracts with a fixed contractor fee added into the price
- 4) **Time-and-materials** contracts, where the contractor bills the applicant for labor, equipment, materials, and overhead. These contracts should be avoided, but may be allowed for work that is necessary immediately after the disaster has occurred when a clear scope of work cannot be developed. Time-and-materials contracts are allowed in circumstances when they are more cost-effective and appropriate for the amount and type of eligible work to be performed. The costs must be reasonable for the type of work required. Applicants must engage in comprehensive active monitoring activities to ensure contractor efficiency. **Typically, FEMA will reimburse for only 70 hours of a time-and materials contract.** If a time-and-materials contract is awarded, the applicants must:
 - Monitor and document contractor expenses;
 - Have a cost ceiling or “not to exceed” provision in the contract; and
 - Contact the State to ensure proper guidelines are followed.

Contract Administration: Following the award of a contract, the management actions that must be taken to assure full compliance with all of the terms and conditions contained within the contract document, including price. Action steps that assure that the contractor is in full compliance with the entire contract. Contract administration activities include payment, monitoring of progress, inspection and acceptance, quality assurance, monitoring and surveillance, modifications, negotiations, contract closeout, and other activities. Also see Contract Management.

Contract Management: The overarching process that a governmental agency will use to ensure that the contractor has performed in accordance with the performance standards contained within the statement of work (SOW) or the Performance Work Statement (PWS). A quality assurance plan contained within the contract. May include: 100% Inspection, Random Sampling, Periodic Inspection, Customer Input, as well as other methodologies. May also be referred to as Surveillance. Also see Contract Administration and Surveillance.

Contract Modification: Any written alteration in specifications, delivery point, frequency of delivery, period of performance, price, quantity, or other provisions of the contract, accomplished by mutual agreement of the parties to the contract. Also see Amendment, Authorized Deviation, Change Order and Contract Amendment.

Contractor: Any individual or business having a contract with a governmental body to furnish goods, services, or construction for an agreed-upon price.

Contracting Officer (CO): A person with the authority to enter into, administer, and/or terminate contracts, and make related determinations and findings.

Contracting Officer’s Representative (COR): An authorized representative for the Contracting Officer.

Contract Renewal: A renewal clause allows an agreement to continue for a defined period if the existing agreement isn't renegotiated within a specified time measured from the expiration of the current contract. The term of renewal depends on the specific contract language, but such clauses generally provide that the contract shall be automatically renewed for the same period (or some lesser term) unless either party, at some stipulated and predetermined time (i.e., 60 days before expiration), gives notice to the other of its desire to end the agreement.

Cost Estimating Format (CEF): A forward pricing methodology for estimating the total cost of repair for large permanent projects by use of construction industry standards. The format uses a base cost estimate and design and construction contingency factors, applied as a percentage of the base cost. (FEMA.gov)

Davis-Bacon Act: A Federal Law (1931) which requires contractors who perform public works construction projects that are federally funded to pay their workers the prevailing wage rate paid in the area for similar work, as set by the Secretary of Labor.

Day – means, unless otherwise specified, a calendar day.

Declaration: The President's decision that a major disaster qualifies for federal assistance under the Stafford Act. - (FEMA.gov)

Debarment –To prohibit a seller/contractor from bidding on future requirements for cause for a certain period of time. A sanction brought against a seller whereby they may not engage in future procurement actions.

To exclude or shut out of future solicitations and contracting opportunities. Also see Suspension.

Debris Removal: Must be generated by a Presidentially declared disaster; located within the designated disaster area; be the legal responsibility of an eligible applicant to remove; and present an immediate threat to life, improved property, or public health and safety (44 CFR §206.223 and §206.224).

Default: The omission or failure to perform a legal or contractual duty, to observe a promise or discharge an obligation, or to perform an agreement. (Black's Law Dictionary, 417, 1990)

Failure to make scheduled payments of interest or principal on a loan, bond, or other types of debt.

Defect: The absence of something that is necessary for completeness or perfection, or a deficiency in something essential to a thing's intended or proper use. A product is defective if it is not fit for the ordinary purposes for which it is sold and used. Defects are generally of two types, latent (not apparent to the buyer by reasonable observation) and patent (a defect that is apparent on normal inspection). Also see Latent Defect. (Black's Law Dictionary, 1126, 1990)

Delegation of Authority: The conferring of authority by someone who has it, to another person, in order to accomplish a task.

Deliverable: The completion of a milestone or the accomplishment of a task. Used to measure successful performance. Also see Milestones. (Harney, 1992)

Delivery: The physical transfer of possession from one person to another, as from a carrier, vendor, or contractor to the purchaser. Also see various *Free on Board (F.O.B.)* descriptions.

Delivery Date: A single date, phased date and/or date of a contract.

Delivery Order Contract: An indefinite delivery/indefinite quantity contract for supplies or services that provides for the issuance of orders for services or supplies during the contract period. May also be referred to as a task order contract.

Delivery Terms: Conditions in a contract regarding freight charges, place and time of delivery, or method of transportation. Also see various Free on Board (F.O.B.) definitions.

Drug-free workplace: The site(s) for the performance of work done by the contractor/grantee in connection with a specific contract/grant at which employees of the contractor/grantee are prohibited from engaging in the unlawful manufacture, distribution, dispensing, possession or use of any controlled substance. (U.S. Department of Labor)

Economically Disadvantages Individuals: Socially disadvantaged individuals whose ability to compete in the free enterprise system is impaired due to diminished opportunities to obtain capital and credit as compared with others in the same line of business that are not socially disadvantaged.

Electronic Commerce (eCommerce): The integration of electronic data interchange, electronic funds transfer, and similar techniques into a comprehensive electronic-based system of procurement functions; could include the posting of IFB's and RFP's on electronic bulletin boards, the receipt of bids via electronic data interchange, notification of award by email, and payment via electronic funds transfer. Also referred to as Electronic Sourcing (eSourcing).

Emergency Protective Measures (Category B): actions before, during, and after a disaster to eliminate or reduce an immediate threat to life, public health or safety or significant damage to improved public or private property.

Emergency Work: That work which must be done immediately to save lives and to protect improved property, public health and safety, or to avert or lessen the threat of a major disaster. Emergency work frequently includes clearance and removal of debris and temporary restoration of essential public facilities and services. Emergency work and permanent work may be combined into one project only when the emergency work is incidental to the permanent work. If the combination is appropriate, the emergency work needs to be evaluated separately from the permanent work to meet varying eligibility requirements (e.g., force account regular time is eligible for only permanent work).
(Category A-B) – (FEMA.gov)

Facility: Any publicly or privately owned building, works, system, or equipment, built or manufactured, or an improved and maintained natural feature. Land used for agricultural purposes is not a facility. The eligible facility must be located in the designated disaster area and must be the legal responsibility of an eligible applicant.
- (FEMA.gov)

Fair and Reasonable Price: A price that is fair to both contracting parties, considering the agreed upon conditions, promised quality, and timeliness of contract performance. Purchasing officials may use a variety of techniques to assure a fair and reasonable price, such as, sealed competitive bidding, competitive proposals, price and cost analysis, and benchmarking to other contracts.

Fair Market Value: The price for an item upon which purchaser and vendor agree in an open market when both are fully acquainted with market conditions.

FAR (Federal Acquisition Regulations): The primary document in the Federal Acquisition Regulations System, containing uniform policies and procedures that govern the acquisition activity of all federal agencies. The FAR is prepared, issued and maintained jointly by the Secretary of Defense, the Administrator of General Services and the NASA Administrator. (Nash, Schooner, O'Brien, 1998).

Federal Register: A daily publication available from the Government Printing Office, that lists and discusses the regulations of federal agencies, makes the regulations available for public comment before they are made final, and publishes all final rules and regulations. (www.gpoaccess.gov/fr)

Fee: A sum of money paid for some service.

1. A charge or payment, usually for professional or technical services.

FEMA: Federal Emergency Management Agency

Fixed-Price Contract: A contract providing for a firm price, or a price that may be adjusted only in accordance with contract clauses providing for revisions of the contract price under stated circumstances.

Force Account: An applicant's own labor forces and equipment. (FEMA.gov)

Free On Board Destination: Title changes hands from the supplier to the public entity at the destination of the shipment when the public entity signs for the goods; the supplier owns the goods in transit, assumes responsibility for carrier selection, and files any claims for damages incurred during this period. It does not address the responsibility for the cost of transportation (freight charges) which must be specified with the inclusion of additional language. See further definitions below which must state who is responsible for freight charges.

Free on Board (F.O.B.) Destination, Freight Collect: Title passes at destination and buyer pays the freight.

Free on Board (F.O.B.) Destination, Freight Collect and Allowed: Title passes at destination and buyer pays the freight and deducts it from the seller's invoice.

Free on Board (F.O.B.) Destination, Freight Prepaid and Added: Title to the goods passes from the supplier to the agency at the point of destination and supplier pays the freight expense and then adds the freight expense to the agency's invoice. Supplier owns goods in transit and files claims, if any.

Free on Board (F.O.B.) Destination, Freight Prepaid and Allowed: Title passes at destination and seller pays the freight.

Free on Board (F.O.B.) Origin: Title changes hands from the supplier to the public entity at the origin of the shipment. In this scenario, the public entity owns the goods in transit, assumes responsibility for carrier selection, and files any claims for damages incurred during this period. It does not address the responsibility for the cost of transportation (freight charges) which must be specified with the inclusion of additional language. See further definitions below which must state who is responsible for freight charges.

Free on Board (F.O.B.) Origin, Freight Collect: Title passes at origin, and the buyer pays the freight.

Free on Board (F.O.B.) Origin, Freight Prepaid and Added: Title passes at origin, and seller pays the freight and then collects the charges from the purchaser by adding them to the invoice.

Free on Board (F.O.B.) Origin, Freight Prepaid and Allowed: Title to the goods passes from the supplier to the agency at point of origin and supplier pays and bears the freight expense. Agency owns goods in transit and files claims, if any.

Free on Board (F.O.B.) Origin, Freight Prepaid and Charged Back: Title passes at origin; seller pays the freight and adds it on to the seller's invoice.

1. Freight: Supplies, goods, and transportable property being moved between locations.
2. Compensation paid for the transportation of goods or for the use of a carrier.

Full and open competition: The process by which two or more vendors attempt to secure the business of a third party by offering the most favorable price, quality, delivery terms, or service. The concept of competition presumes the existence of a marketplace in which there is more than one vendor supplying similar goods and/or services.

Full Warranty: A warranty as to full performance covering both labor and material; the warrantor must remedy the product within a reasonable time and without charge after notice of a defect or malfunction.
Hazard Mitigation: Any cost-effective measure that will reduce the potential for damage to a facility from a disaster event. - (FEMA.gov)

Invitation for Bid (IFB): All documents used to solicit competitive or multi-step sealed bids. *Also known as Invitation To Bid (ITB).*

Labor surplus area: An area designated by the Secretary of Labor as having concentrated unemployment or underemployment in comparison with other areas. Used as one of the criteria for designating economically disadvantaged vendors/suppliers.

Latent defect: A defect, deficiency or imperfection that is not detected or discovered using generally accepted inspection methods. A defect that surfaces after final acceptance. It is not concealed damage. Also see Defect. (NASPO, 2001)

Major Disaster: As defined under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122), a major disaster is any natural catastrophe (including any hurricane, tornado, storm, high water, wind-driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought), or, regardless of cause, any fire, flood, or explosion, in any part of the United States, which in the determination of the President causes damage of sufficient severity and magnitude to warrant major disaster assistance under this Act to supplement the efforts and available resources of States, tribes, local governments, and disaster relief organizations in alleviating the damage, loss, hardship, or suffering caused thereby.

“May”: Denotes the permissive in a contract clause or specification. Also see “*Shall*”.

Micro-purchase: Means an acquisition of supplies or services using simplified acquisition procedures, the aggregate amount of which does not exceed the micro-purchase threshold.

Micro-purchase threshold: \$3,000 with the exception of construction contracts which is \$2000.

MBE: Minority Business Enterprise. See Economically Disadvantaged Individuals

Noncompetitive proposals: a method whereby a proposal is received from only one source. Noncompetitive proposals should only be used when the award of a contract is not feasible under small purchase procedures, sealed bids, or competitive proposals, and one of the following circumstances applies:

- The item is available only from a single source
- There is an emergency requirement that does not permit a delay
- Solicitation from a number of sources has been attempted, and competition is determined to be inadequate

Offer: response to a solicitation that, if accepted, would bind the offeror to perform the resulting contract.

Offeror: The person/entity who submits a proposal in response to an Invitation for Bid (IFB), Request for Proposals (RFP), Request for Qualifications (RFQ) or Request for Quotation (RFQu). One who makes an offer in response to a solicitation. Also see Bidder.

Open-End Contract: A contract which sets forth the general provisions of supplies and services that may be delivered or performed within a given period of time, but in which quantity and/or duration is not specified. The quantity and delivery are specified with the placement of orders.

Option to Extend: In accordance with contract terms, an option that allows a continuance of the contract for an additional period of time. Also see option to renew.

Option to Renew: A contract provision that allows a party to reinstate the contract for an additional term, beyond that stated in the original contract, in accordance with contract terms. Also see option to extend.

Order: An instruction issued to a vendor for goods to be delivered to a given place at a given price.

Performance: The technical, operational, and quality characteristics of the end item.

Performance Based Contract: A results-oriented contracting method that focuses on the outputs, quality, or outcomes that may tie at least a portion of a contractor's payment, contract extensions, or contract renewals to the achievement of specific, measurable performance standards and requirements. These contracts may include monetary and non-monetary incentives as well as specific remedies.

Performance Bond: An instrument executed, subsequent to award, by a successful bidder that protects the public entity from loss due to the bidder's inability to complete the contract as agreed. A risk mechanism that secures the fulfillment of all contract requirements. May be referred to as a Completion Bond.

Piggyback Contracts: Contracts with disaster-related work performed by another jurisdiction's contractor with the city piggybacking off the same contract terms and conditions – FEMA does not favor “piggyback contracts” (FEMA.gov). *The City will most likely establish our own contracts with vendors/contractors or use pre-approved and properly executed state or federal contracts (SAW).*

Piggyback (Piggyback Cooperatives): A form of intergovernmental cooperative purchasing in which an entity will be extended the pricing and terms of a contract entered into by a larger entity. Generally a larger entity will competitively award a contract that will include language allowing for other entities to utilize the contract which may be to their advantage in terms of pricing, thereby gaining economies of scale that they normally would not receive if they competed on their own. Example: A smaller government agency has the ability to use its state issued contract to obtain goods and services which is also known as Riding a Contract.

Permanent Work: That work that must be performed through repairs or replacement to restore an eligible facility on the basis of its pre-disaster design, use, and current applicable standards. (Category C-G) (FEMA.gov)

Pre-Bid/ Pre-Proposal Conference(Meeting): A meeting held by the buyer with potential bidders/offerors, prior to the opening of the solicitation for the purpose of answering questions, clarifying any ambiguities and responding to general issues in order to establish a common basis for understanding all of the requirements of the solicitation. May result in the issuance of an addendum to all potential providers. In certain situations, a mandatory conference may be advisable. Also see Bidders Conference and Pre-solicitation Conference.

Pre-solicitation Conference: An informal, typically non-mandatory, meeting inviting comments and suggestions from a representative group of vendors on the draft of a proposed solicitation; this conference provides useful market analysis information to the Buyer; usually used for solicitations involving high technology or complex services. Also see Bidders Conference, Pre-bid/Pre-Proposal conference, Request for Comments (RFC) and Request for Information (RFI).

Price:

1. A value placed on an object or service provided by a seller to a buyer.
2. The money value of a unit of a good, service, or resource.
3. The total amount, in money or other consideration, to be paid or charged for a commodity or service; normally includes all costs (direct labor, overhead, materials) and profit or fee.

Price Adjustment Clause: A clause in a contract allowing for adjustment in price in accordance with circumstances arising during the term of the contract. A provision that must be included in contracts requiring contractor certification of cost and pricing data stating that price, including profit or fee, shall be adjusted to exclude any significant sums by which the jurisdiction finds the price was increased because the contractor-furnished cost or pricing data was inaccurate, incomplete, or not current.

Price Agreement: A contractual agreement in which a purchaser contracts with a vendor to provide the purchaser's requirements at a predetermined price. Also see Blanket order, Open end contract, and Requirements contract.

Price Analysis: The process of examining and evaluating a prospective price without performing cost analysis; that is, without evaluating the separate cost elements and profit of the offeror included in that price. The end result of price analysis is to ensure fair and reasonable pricing of a product or service. Price analysis may include a variety of techniques such as comparing proposed prices with prices of same or similar items obtained through market research. (Nash, Schooner, O'Brien, 1998).

Price At Time of Delivery: A term used in sales contracts when market prices are so volatile that the vendor will not give a firm price or use an escalator clause, but will only agree to charge the same price to all customers for similar purchases on the day of shipment or delivery of goods. Also see Open-End Pricing and Price Prevailing at Date of Shipment.

Price Ceiling: Upper limit imposed on the price of a good. The highest price that a buyer is willing to pay. (Business, 2002)

Price Competition: Selection of a contractor, from two or more vendors, based either solely on prices submitted, or on the final prices resulting from a negotiation with all contractors within a competitive range.

Pricing: The process of establishing a reasonable amount to be paid for goods and services. Generally includes labor, material, ancillary costs and profit.

Procurement: Purchasing, renting, leasing, or otherwise acquiring any supplies, services, or construction; includes all functions that pertain to the acquisition, including description of requirements, selection and solicitation of sources, preparation and award of contract, and all phases of contract administration. The combined functions of purchasing, inventory control, traffic and transportation, receiving, inspection, storekeeping, salvage and disposal operations.

Procurement Methods: Methods by which goods, services, or material may be acquired by public purchasers. The methods may include blanket orders, emergency purchases, standing offers, purchase orders, transfers, competitive bidding, competitive negotiation, intergovernmental cooperative agreements, small purchase contracts, purchases via a credit card, etc.

Prohibited Contracts: In accordance with 44 CFR Part 13.36(f)(4), cost plus percentage of cost contracts shall not be used. Use of such contracts may result in FEMA limiting the Public Assistance grant to an amount determined to be reasonable based on the eligible work performed. Contracts that are awarded by an applicant to debarred contractors are prohibited pursuant to 44 CFR Part 13.35; thus, no Federal funding can be awarded for eligible work completed.

Purchase order: A purchaser's written document to a vendor formalizing all the terms and conditions of a proposed transaction, such as a description of the requested items, delivery schedule, terms of payment, and transportation.

Purchase Requisition (PR): A document created by a requestor authorizing the commencement of a purchasing transaction. Typically will include a description of the need and other information that is relative to the transaction. May be submitted in hard copy or via eProcurement software.

Qualified Bidder: A bidder determined by the purchasing organization to meet the minimum standards of business competence, reputation, financial ability, and product quality for placement on the bidders list. Also see Responsible Bidder.

Qualified Products List (QPL): A list of items (products) that have been examined and tested and have satisfied all applicable qualification requirements. These lists are used on procurements to restrict bidders/offerors to those products on the lists. May also be referred to as an Approved Brands List (ABL) or an Approved Products List (APL). (Nash, Schooner, O'Brien, 1998) –

Qualified Products List (QPL) Specifications: QPL Specifications are based on a list of products identified by manufacturers' names and model numbers, which are the only items which will be acceptable. These are used when quality is such a critical factor and testing so lengthy or expensive that the agency wants to stay with proven products. The list is prepared by testing products, either in the lab or in daily use. Items may be added to the list by the supplier demonstrating their quality by meeting specifications that have been defined by the using entity.

Reasonable Cost: A reasonable cost is defined by the Office of Management and Budget (OMB) Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments* and Circular A-122, *Cost Principles for Non-Profit Organizations*, as a cost which in its nature and amount does not exceed that which would be incurred by a prudent person under the circumstance prevailing at the time the decision was made to incur the cost. Considerations include evaluating historical costs for similar work, analyzing costs for similar work in the region, reviewing published unit cost data for the work, or comparing costs with the FEMA Schedule of Equipment Rates and Cost Codes. The source of costs may include: the applicant's force account labor, equipment, and materials; contracted services; and mutual aid agreements. Costs are discussed further in Chapter 2, *Costs*.

Reasonable Cost: A cost that by its nature or amount does not exceed what would normally be incurred by an ordinarily prudent person in the conduct of competitive business. Often used in the context of “fair and reasonable” cost/price.

Receipt: Written acknowledgement that one party has obtained money or something of value from the other, without any affirmative obligation upon either party.

Receiving: The function of accepting from all sources all items of supply used in the organization.

Receiving report: A document used in the receiving and inspection process that identifies the item, quantity, and date of delivery. It may also note any discrepancies or problems.

Reference: A component of due diligence to determine the capability of performing contractual requirements whereby previous businesses are contacted concerning the potential contractors skills, qualifications and capabilities.

Request for Comments (RFC): A document generated prior to an authorized procurement in order to request feedback from the contracting community or potential proposers/bidders, to seek information about a product or service in order to assist in the finalization of technical specifications, design specifications, or a statement of work. Also see Pre-Solicitation Conference and Request for Information (RFI). (ISM, 2000)

Request for Information (RFI): A non-binding method whereby a jurisdiction publishes via newspaper, internet, or direct mail its need for input from interested parties for an upcoming solicitation. A procurement practice used to obtain comments, feedback or reactions from potential suppliers (contractors) prior to the issuing of a solicitation. Generally price or cost is not required. Feedback may include best practices, industry standards, technology issues, etc. Also see Pre-Solicitation Conference and Request for Comments (RFC).

Request for Proposal (RFP): The document used to solicit proposals from potential providers for goods and services (Offerors). Price is usually not a primary evaluation factor. Provides for the negotiation of all terms, including price prior to contract award. May include a provision for the negotiation of Best and Final Offers. May be a single step or multi-step process. Introduced in the Armed Services Procurement Act of 1962 as well as by the Competition in Contracting Act of 1984.

Request for Qualifications (RFQu): A document which is issued by a procurement entity to obtain statements of the qualifications of potential development teams or individuals (i.e. consultants) to gauge potential competition in the marketplace, prior to issuing the solicitation.

Request for Quotation (RFQ): A small order amount purchasing method. Generally used for small orders under a certain dollar threshold, such as \$1000.00. A request is sent to suppliers along with a description of the commodity or services needed and the supplier is asked to respond with price and other information by a pre-determined date. Evaluation and recommendation for award should be based on the quotation that best meets price, quality, delivery, service, past performance and reliability.

Requisition: An internal document by which a using agency sends details of supplies, services, or materials required to the purchasing department.

Rescission of Contract: The relieving of a party from all obligations under a contract. A remedy for mutual mistake when reformation is not possible, and for other defects in contract formation such a duress, fraud, misrepresentation and unconscionability. (Nash, Schooner, O’Brien, 1998)

Residual Value: The proceeds, less removal and disposal costs, if any, realized upon disposition of a tangible capital asset (*FAR 31.001*).

Responsible Bidder/Offeror: A contractor, business entity or individual who is fully capable to meet all of the requirements of the solicitation and subsequent contract. Must possess the full capability, including financial and technical, to perform as contractually required. Must be able to fully document the ability to provide good faith performance. Also see Qualified Bidder.

Responsive Bidder/Offeror: A contractor, business entity or individual who has submitted a bid or request for proposal that fully conforms in all material respects to the IFB/RFP and all of its requirements, including all form and substance.

Restocking Charges: On occasion, a public entity may inadvertently order more product or equipment than is required or, in error, order the wrong material. This is the charge incurred when returning the oversupply to the seller. It is good practice to include a restocking charge clause allowing the public entity to return the product for a negotiated restocking fee.

Sealed Bids: formal method where bids are publicly advertised and solicited, and the contract is awarded to the responsible bidder whose proposal is the lowest in price. This method is the preferred method for procuring construction contracts (FEMA.gov).

Service/Services Contract:

1. An agreement calling for a contractor's time and effort.
2. The furnishing of labor, time, or effort by a contractor or vendor, which may involve to a lesser degree, the delivery or supply of products. The UCC/state commercial codes only apply to a procurement of a product, while state common law would apply if it is considered a procurement of a service.

Scope of Work: A detailed, written description of the conceptual requirements for the project contained within a Request for Proposal. The scope of work should establish a clear understanding of what is required by the entity.

“Shall”: denotes the imperative in contract clauses and terms.

Sherman Antitrust Act (U.S. Law): Passed by Congress in 1890, it prohibits contracts and conspiracies in restraint of trade, conspiracies to monopolize trade, and attempts to monopolize. The act makes price fixing, bid rigging, territorial market allocation, and some types of tying arrangements and boycotts illegal. Also see Clayton Act, Price Fixing and Tying Arrangement. (Business, 2002)

“Should”: signifies something you ought to do or indicating a desirable or expected state. (COC)

Simplified Acquisition Procedures: policies and procedures for the acquisition of supplies and services, including construction, research and development, and commercial items, the aggregate amount of which does not exceed the simplified acquisition threshold.

Simplified Acquisition Thresholds: means \$150,000 ([41 U.S.C. 134](#)), except for acquisitions of supplies or services that, as determined by the head of the agency, are to be used to support a contingency operation or to facilitate defense against or recovery from nuclear, biological, chemical, or radiological attack

Small Business: An independently owned firm, corporation, or establishment, having a small number of employees, low volume of sales, small amount of assets, and limited impact on the market.

Small Business Act: 1999 act which establishes the Federal Government's responsibility to aid, counsel, assist, and promote the interests of small businesses (as defined by the Small Business Administration), and to place with such businesses a fair proportion of Federal Government purchases and contracts for goods and services.

Small Business Administration (SBA): An independent agency of the Federal Government that offers managerial and financial assistance to small businesses. The SBA mission is to maintain and strengthen the nation's economy by aiding, counseling, and assisting the interests of small businesses. (www.sbs.gov)

Small Disadvantaged Business: A business offered preferential treatment: a small business that qualifies for preferential consideration for government contracts, usually because it is largely owned by a socially and economically disadvantaged person or group. Also see Economically Disadvantaged Individuals, Historically Underutilized Business (HUB), Minority-Owned Business (MBE) and WBE. (Encarta® World English Dictionary © & (P) 1998-2004 Microsoft Corporation. All rights reserved.)

Small Purchase: Any procurement not exceeding a given upper monetary limit, as established by law, regulation, executive order, etc. Usually applies to purchases of small dollar amounts under a certain monetary threshold.

Small purchase procedures: An informal method for securing services or supplies that do not cost more than \$25,000 by obtaining several price quotes from different sources.

Socioeconomic Programs: Using governmental purchasing power to promote public policy. Examples include: encouraging living wage programs in public contracting, establishing small business and minority procurement goals and establishing environmental procurement initiatives. (Schiller, 2000)

Sole Source Procurement: A situation created due to the inability to obtain competition. May result because only one vendor or supplier possesses the unique ability or capability to meet the particular requirements of the solicitation. The purchasing authority may require a justification from the requesting agency explaining why this is the only source for the requirement.

Sole Sourcing: U.S. Selection of one particular supplier to the exclusion of all others. This decision may be based on lack of competition, proprietary technology, copyright or a supplier's unique capability. In government procurement, a sole source justification may be required from the requestor. Also see Single Sourcing.

Solicitation: An invitation for bids, a request for proposals, telephone calls or any document used to obtain bids or proposals for the purpose of entering into a contract. Also see Bid and Tender.

Sourcing: The identification and selection of the supplier whose costs, qualities, technologies, timeliness, dependability, and service best meet the organization's needs. (Burt, Dobler, Starling, 2003, 16)

Special Considerations: FEMA uses the term "special considerations" to describe issues other than basic program eligibility that affect the scope of work and funding for a project. Applicants have a critical role in identifying and resolving special considerations issues. The applicant should assist FEMA by identifying the issues as early as possible and providing the information necessary for review. A brief description of environmental and historic preservation special considerations that relate to debris operations are set forth below.

Special Procurement: A type of procurement, as practicable under the circumstances and initiated by the head of the entity, for an unusual or unique situation. The contract is not awarded based on the application of requirements of competitive sealed bidding or competitive sealed proposals that could be contrary to the public interest or the needs of the entity.

Stafford Act: The Robert T. Stafford Disaster Relief and Emergency Assistance Act, Public Law 93-288, as amended, §42 U.S.C. 5121, et seq which authorizes FEMA's current disaster assistance programs and the Hazard Mitigation Program. The Program provides assistance for debris removal, implementation of emergency protective measures, and permanent restoration of eligible facilities and infrastructure. - (FEMA.gov & Public Assistance Debris Guide @ Fema.gov)

Statement of Work: The response from the supplier/contractor outlining very specifically how the supplier proposes to complete the work as outlined in the Scope of Work. It defines what will be done, how, by whom, and cost factors.

Statutes: The written laws approved by legislatures, parliaments or house of assembly. Also known as legislation.

Statutory Law: The written law established by enactments of government, expressing the will of the legislature. A statute is the written law as opposed to common law, which is unwritten law. Statutes are written at all levels of government.

Surplus:

1. Results in an overstock situation when the quantity of goods on hand exceeds the quantity of goods needed. The overstocked goods may be returned to the vendor, sold at auction or disposed of in a method acceptable to the entity.
2. Refers to goods or materials that are obsolete or no longer needed by the agency and are designated for disposal. Surplus becomes available for disposal outside of the entity because of some unforeseen situation that affects the use of the item. An example would be chairs or desks that have been replaced with new items. Also see Obsolete Supplies/Equipment.

Suspension: Prohibiting a supplier from submitting bids and offers for a definite or indefinite period of time. A temporary determination to exclude a supplier from obtaining any contracts for a period of time, usually before initiating debarment. Reasons for this action may include poor performance, late deliveries, violations of previous contract terms, etc. Also see Debarment.

Task order: See Delivery order contract

Technical Proposal: A response to a solicitation which describes in detail what an Offeror proposes to furnish and the method of delivery. May be part of a two-step response contained within an offer, the second part being the price proposal.

Technical Specifications: Specifications that establish the material and operating requirements of products and services.

Temporary Work:

Term Contract: A type of contract in which a source of supply is established for a specified period of time for specified services or supplies; usually characterized by an estimated or definite minimum quantity, with the possibility of additional requirements beyond the minimum, all at a predetermined unit price.

Termination for Convenience: A contract clause which may be contained within boilerplate language that allows for contract to be ended at the discretion of the governmental entity. Action by which the purchasing entity, in accordance with contract provisions, unilaterally cancels all or part of the contract work for the best interest of the jurisdiction, and with no reflection on the contractor's performance. Also see Cancellation of a Contract, Discharge by Mutual Assent, and Termination for Default.

Termination for Default: A contract clause which may be contained within boilerplate language that allows either contracting party the right to cancel a contract, either in whole or in part, due to failure of the other party to perform satisfactorily. Also see Cancellation of a Contract, Discharge by Mutual Assent and Termination for Convenience.

Terms and Conditions (T's and C's): Standard boilerplate language that includes standard clauses and rules which apply to bids and offers formally solicited that may become incorporated into the final contract. Also see Boilerplate.

Terms of Contract: Stipulations made in contracts.

Terms of Payment: The methods of payment stipulated in a sales or purchasing contract.

Unallowable Cost: Any cost which, in accordance with pertinent laws or regulations, cannot be included in prices or cost-reimbursements under a contract to which the cost is allocable. (Nash, Schooner, O'Brien, 1998)

Unbalanced Bid: A bid that contains pricing aberrations, for example, low or nominal prices may be bid for some items and high or enhanced prices may be bid for other work. This may happen in time and material contracts or construction contracts where upfront payment may be made for mobilization. It is wise policy to state in the bid documents that "unbalanced bids may be deemed non-responsive". Unbalanced bids may be deemed to be non-responsive, and may be both mathematically unbalanced and materially unbalanced. Many public entities utilize a bid analysis procedure to help identify unbalanced bids; example: State of Wisconsin DOT Construction and Materials Manual, Section 2.1.2.1.1, revised 10/98. Also see Front-End Loading. (Miller, 2006)

Underemployment: An economic condition where people seeking full-time paid employment work only part time or are employed at jobs below their capability. (Schiller, 2000)

Unemployment: The inability of labor-force participants to find jobs. An economic condition in which a percentage of the population wants to work but is unable to find sustainable employment. (Bishop, 2004)

Uniform Administrative Requirements for Grants in Aid to States and Local Governments: Document issued by the Office of Management and Budget (OMB) in 1988 to establish uniform administration rules for federal grants and cooperative agreements. Also see OMB Circular A-102.

Unit: A standard or basic quantity into which an item of supply is divided, issued, or used, such as a unit cost or unit of measurement.

Unit Cost: The cost of a unit of product or service, found by dividing the total costs for a given period of operation by the number of units produced in that period of operation.

Unit Labor Cost: Hourly wage rate divided by output per labor-hour. (Schiller, 2000)

Unit Price: The cost per unit of a product or service; e.g., price per ton, per labor hour, or per foot.

Unnecessarily restrictive: A term used when specifications or terms and conditions limit competition arbitrarily, without reasonably promoting the fulfillment of the procurement needs of a contracting authority.

Value Added:

1. The increase in worth of a product or service as it moves through various stages of production and distribution.
2. What contribution a service function within an organization can make toward return on investment, increased productivity, or improved customer service. (Business, 2002)

Value Analysis: An organized effort directed at analyzing the functions of a product or service including specifications, standards, practices and procedures with the intent to satisfy the required function at the lowest possible cost without impacting functional need and suitability. Also see *Value Engineering*. (Nash, Schooner, O'Brien, 1998)

Vendor: A supplier/seller of goods and services. A reference to a provider of product or service.
