Subject: RE: [EXTERNAL] Re: WIS interview with Columbia Animal Services

Thank you for your response. Appropriate staff will be contacted regarding a rescheduled date and time for the interview. Please note that since questions will not be provided in advance, there may be some questions the staff cannot answer without conducting prior research or compiling information.

Subject: Re: [EXTERNAL] Re: WIS interview with Columbia Animal Services

Unfortunately, I'm no longer available tomorrow (Friday).

Tuesday would be preferable, but we can make Monday work. I'm ver flexible with timing! But late morning or early afternoon is best for me.

I do not sent questions in advance. The topic though is the shelters euthanasia rate/statistics.

Good afternoon,

For clarity, please confirm if you are no longer available on tomorrow, Friday, May 19.

If you prefer Monday or Tuesday of next week, please advise if you are available during the full day or morning or afternoon hours.

Also, please see the email below with a request from city staff asking for a list of questions that you plan to ask. This will assist with preparing for the interview and ensuring that they have the information available.
